What's Happening at BEMS

Hello, Bakersfield!

Things are looking good in 5th and 6th grade. We have been learning about how our government works, and other types of governments around the world, during Global Citizenship. We have been working on gathering research about student-chosen topics and will soon be writing informational essays during Literacy. 6th Graders have been learning how to use strategies for solving ratio and percentage problems in Math. We are also about to start our new Science unit about the Earth-Sun-Moon system, which should line up nicely with the upcoming eclipse in April! As always, I'm looking forward to seeing 4-8 out on the slopes on our next Ski Day. -Miss Behrens

Hello all, I hope everyone is enjoying the sunshine.

Things have been moving along in PE and Health. We have been focusing on decision making and integrating it in different ways. The older groups have been learning about online safety, and now we are moving into sports injury prevention. In PE, we have been enjoying kickball, floor hockey, and volleyball (crowd favorite). We started cross-country skiing with grades 1-4, and hopefully, the weather will be in our favor after this week to continue. In our middle school health classes, we will be starting sexual health education after break. I will be hosting a Parents' Night to answer any questions you may have and run through the curriculum for those who are interested. I will be sending a letter home with more details. This will take place on 2/19/24 at 5 pm. I hope everyone has a chance to get outside in the fresh air and sunshine while we have it. Mr. RD
